

# Got Wrinkles?

**Consider taking part in a clinical research study for Frown Lines between the eyebrows.**

**You may qualify to participate in this voluntary clinical research study if you are:**

- 18 years or older (men and women of all ethnicities)
- Have moderate to severe frown lines between the eyebrows
- No use of botulinum toxin within the last 6 months for aesthetic treatment and 12 months for therapeutic treatment

Study participants will receive investigational drug and study-related exams at no cost. Compensation for time and travel may be available.

**To see if you qualify, please contact:**
