

Hyperhidrosis study now enrolling!

Prequalify Now

We are now enrolling subjects in the **Sweat2Much: Cardigan Study**, a hyperhidrosis research study evaluating an investigational treatment for axillary hyperhidrosis (excessive underarm sweating).

Click [prequalify](#) to visit the study website and answer a few quick questions to see if you are eligible to move onto the next step of the enrollment process. This process will only take a few minutes and if you prequalify, we will be in touch to verify your eligibility.

A little about the study:

- It is an 11-15 week study with 13 clinic visits
- Participants must be ages 9+
- Participants must be exhibiting symptoms of axillary hyperhidrosis for at least 6 months
- Participants will be helping millions of other hyperhidrosis sufferers worldwide... just by being a part of the study
- You will be compensated for completing these visits and receive all study visits and study products at no cost
